Section III NONCONFORMANCE

Any lawful use of land, buildings, or structures, existing on the effective date of this Ordinance or amendments thereto, end not in conformance with the provisions of this Ordinance, shall be considered to be a nonconforming use. Such a "nonconforming use" may be maintained, improved and repaired, and may be conveyed to new owners without loss of its lawful, but nonconforming status, under the following provisions:

A. Separate Lots

In any district, single lots of record on the date of adoption or amendment of this Ordinance may be built upon or conveyed even though they do not conform to the minimum standards of this Ordinance. Such lots shall not be of contiguous frontage with other lots in the same ownership. Land Use Ordinance**

B. Contiguous Lots

If two or more contiguous lots, all or part of which do not meet the minimum requirements of this Ordinance, are in the same ownership of record on the date of adoption or amendment of this Ordinance, and if a structure exists on each lot, or if each lot was legally created and recorded before the adoption or amendment of this Ordinance, the nonconforming lots may be conveyed separately or together.

C. Vacant Contiguous Lots

If two or more vacant, contiguous lots, all or part of which do not meet the minimum requirements of this Ordinance, are in the same ownership of record on the date of adoption or amendment of this Ordinance, and if these lots do not individually meet the requirements of this Ordinance, the lots shall be combined to the extent necessary to meet the requirements, except: 1) where the contiguous lots front onto different streets; 2) where the lots abut only at a point; or 3) the lots were legally created and recorded in an approved subdivision plan.

D. Abandonment

If any nonconforming use is abandoned for any reason for a period of eighteen months or more, any subsequent use shall conform to the requirements of this Ordinance.

E. Change In Use

F. Expansion of Use or Structure

A nonconforming use, including a nonconforming outdoor use of land, shall not be extended or expanded in area or function beyond the boundaries of land in the same ownership on the date of adoption or amendment of this Ordinance. The Board of Appeals shall hold a public hearing within 30 days of the appeal. Within 45 days after the hearing, or within such time as may be mutually agreed to, the board of Appeals shall issue a decision.

The case shall continue as follows:

F. Special Exceptions (Conditional Uses)

A building, structure or lot of land may be employed for a Special Exception (Conditional Use) if the Special Exception is specifically allowed in the district in which the use is proposed; if the building, structure or lot of land meets all required conditions and if a Special Exception Permit is approved by the Planning Board.

1. Application for Special Exception Permit. Application shall be made to the Code Enforcement Officer on forms provided for the purpose, accompanied by such fee as may be established by the Town. The applicant shall:

- a) Clearly specify the location of the proposed use, including street address, tax map and lot number, and a location map at a scale no smaller than the tax map;
- b) Describe the exact nature of the proposed use;
- c) Submit such other information as will enable the Planning Board to determine that the standards for approval of a Special Exception Permit have been met.

2. Additional Conditions. The Planning Board may, in order to carry out the purposes of the Special Exception procedure, require additional conditions, specifications, criteria, and standards necessary to protect the public interest and to fit such uses harmoniously and compatibly into their neighborhoods and locations. Such conditions may include, but are not limited to:

(a) increased setbacks;

(b) specified water supplies or sewage disposal facilities, as well as the impact of the use on the quality and quantity of groundwater available to abutting properties, is comparable to that for surrounding uses, and the capacity of sewerage and water supply systems is adequate to accommodate the proposed use and, where applicable, the capacity of the storm drainage system is adequate to accommodate the proposed use;

(c) type of vegetation, landscaping, planting screens, installation and maintenance of effective opaque fencing and to provide visual screening at least six feet in height to be located along side and rear property lines that abut properties in residential use;

hours of operation, anticipated parking demand and peak hour traffic; lighting; signs, markings and advertisement; the generation of noise, dust, odor, vibration, glare, smoke, litter and other nuisances in comparison to that generated by surrounding uses; that the proposed onsite use shall not be of a character as to have significant adverse impact upon the value or quiet possession of surrounding properties.

(e) routing of traffic, to include vehicular and pedestrian access and circulation to, from, into and within the site that will be safe and no public way will be overburdened or made hazardous as a result of the new use of and or development of the property; that vehicular access to the site will be on roads which have adequate capacity to accommodate the additional traffic generated by the development as certified by a licensed traffic engineer; and that topography of the site shall permit the construction of all driveways, entrances or proposed streets to meet the standards set forth in the South Thomaston Land Use Ordinance or applicable State of Maine standards;

(f) professional and safe operation consistent with the proposed use, including: provision of documentation and receipt of all approvals and licenses required by any and all government agencies of competent jurisdiction; that adequate facilities are present to assure the safety of pedestrians passing by or through the site; that municipal or other facilities serving the proposed use will not be overburdened or made hazardous; and the ability of the fire department to provide necessary protection services to the site and development is adequate;

(g) the size and character of proposed use is reasonably comparable to the size of surrounding uses; and unusual physical characteristics of the site, including size of the lot, shape of the lot, topography, and soils, do not aggravate or cause adverse impacts upon surrounding properties;

(h) maintenance and inspection of sewage disposal facilities;

(i) and other required performance guarantees as specified in the application review process.

Such conditions imposed, and the reasons therefore, shall be written as part of those permits issued by the Planning Board which may involve additional conditions.

3. Procedure. The Planning Board shall follow the following procedure in considering Special Exception: A quorum of at least three members shall be present to consider a Special Exception. The secretary of the Board shall maintain a record of all meetings, including a transcript, if any, and exhibits or documents submitted regarding Special Exceptions, which shall be a public record. The Board may receive oral or documentary evidence regarding the requested Special Exception; each party having the right to submit rebuttal evidence, conduct cross-examination and to be represented by legal counsel. G. Variances

1. Application. Application for a variance from specifications in this Ordinance is to be made to the Board of Appeals, following the requirements for Special Exceptions.

2. Procedure. The Board of Appeals shall follow the procedures set forth in MRSA Title 30, §2411, "Board of Appeals".

3. Variances Limited. A variance may be granted only for dimensional requirements. A use not allowed in a district may not be granted by variance. Furthermore, the applicant must show that the strict application of the terms of this Ordinance would create an undue hardship on the applicant. The term "undue hardship" shall mean:

- a) That the land in question cannot yield a reasonable return unless a variance is granted;
- b) That the need for a variance is due to the unique circumstances of the property and not to the general conditions in the neighborhood;
- c) That the granting of a variance will not alter the essential character of the locality;
- d) That the hardship is not the result of action taken by the applicant or a prior owner.

Before granting any variance, the Board of Appeals may refer the application to the Planning Board for an informational report concerning the effect of the request on the surrounding area and any other pertinent data in respect of the Comprehensive Plan of South Thomaston.

4. Duration of Variance. A Variance Permit shall be a permanent grant of permission and shall "run with the land".
